

# NYC COMMERCIAL WASTE ZONING INFORMATION

Action Environmental has been successfully serving businesses in New York City for over 20 years and built a reputation as one of the city's premier haulers.

## New York City's Commercial Waste Zoning Law

Local Law 199, adopted on November 20, 2019, mandates the creation of twenty commercial waste zones across New York City, and authorizes up to three waste and recycling carters to operate in each zone. Zones will be assigned to eligible haulers by the Department of Sanitation, and subsequently New York City commercial establishments will be required to contract with one of the waste and recycling providers in their zone.

## What the New Zoning Law Means for Customers

For our customers, we anticipate minimal change under the new zoning program. You can expect the same seamless and efficient services. We remain committed to serving the people and businesses of New York City and are excited to be a part of a more sustainable approach to waste and recycling collection and processing while promoting long-term zero waste initiatives in our city.

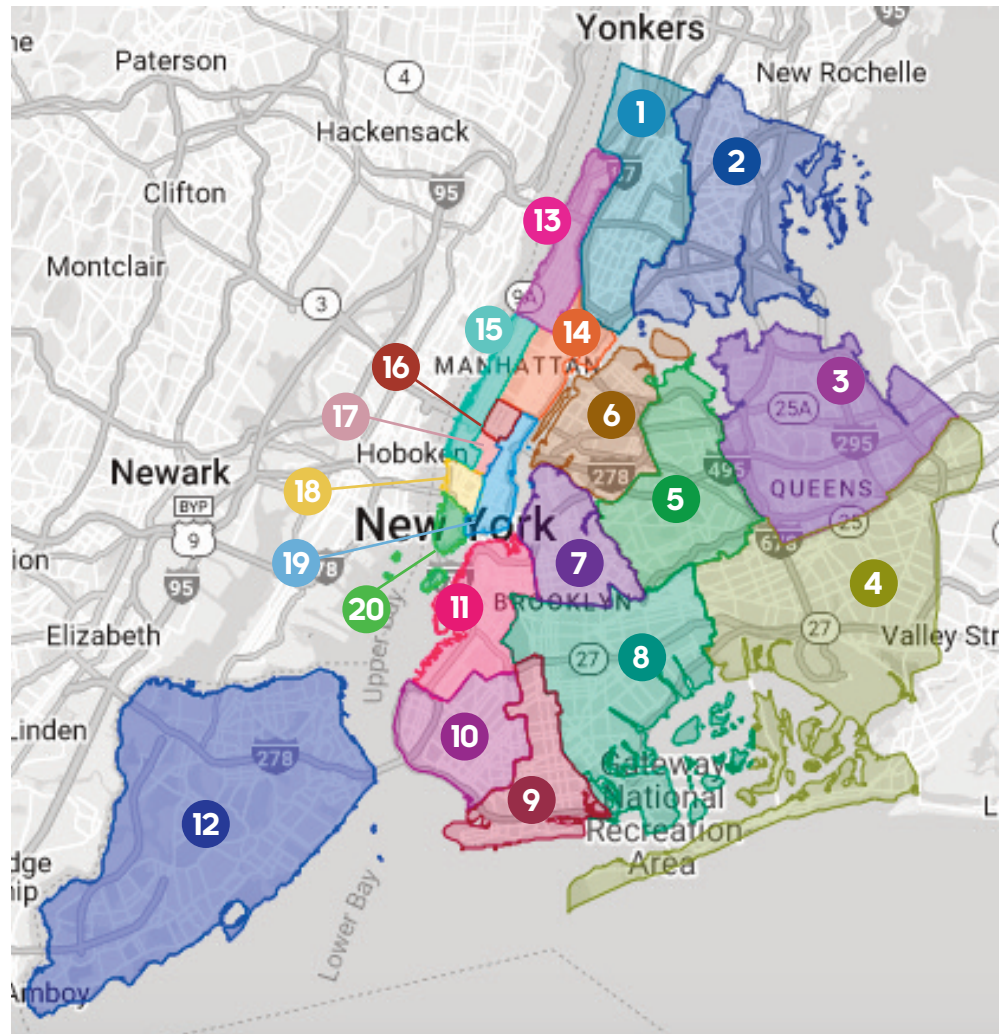

## SERVING THE PEOPLE & BUSINESSES OF NEW YORK CITY FOR OVER 20 YEARS

# NEED TO FIND YOUR ZONE?
